

# A Request

I hear rumored that some of the good people of Farmington are opposing the entrance into Farmington of the Industrial Transportation store, on the grounds that it will ruin the other stores. I wish to ask any fair-minded business man to ask himself this question: Would the industrial Transportation Store want to kill the town, or do you think we would want to come into a dead town? And the writer will say if you don't know the principles of our company and can't see how we can help your town, we would like for you to call on one of our agents, J. B. Ross or T. I. Fahey, and we will gladly explain in detail how. If we can't convince you we won't expect you to join or co-operate with us.
